

#	Project Name	Technologies	Overview	Response Process
1	<div>WEBSITE  3 months  3</div> Vietnam Real Estate Portal Website	HTML&CSS, JavaScript, PHP, Bootstrap, mySQL,...	A real estate company's portal with customizable subsites based on business areas. Manage content and data via the admin module, and set user and department permissions.	System Design, UI/UX design, development, testing, operation, maintenance.
2	<div>WEBSITE  1 months  4</div> Corporate Homepage	HTML&CSS, Javascript	This is a website that showcases products, information, and more created by a company.	Development, testing, operation, maintenance.
3	<div>WEBSITE  1.5 months  6</div> Website Maintenance	HTML/CSS	Edit and update hundreds of pages of homepages.	Development, testing, operation, maintenance.
4	<div>WEB SYSTEM, APPLICATION  1 months  3</div> Plugin Development for Jenkins	Java, HTML&CSS, mySQL, MVC pattern	Automatically retrieve app & in-app purchase revenue from Plugin AppStore for Jenkins & GooglePlay, then store it in the local database. Display revenue statistics in report format & export to CSV.	System Design, UI/UX design, development, testing, operation, maintenance.
5	<div>WEB SYSTEM, APPLICATION  4 months  5</div> Store Locator Website	Java, HTML&CSS, mySQL, MVC pattern	A website and content management system that provides information about establishments like restaurants and shopping. Users can search for information, comment on services, and give ratings.	System Design, UI/UX design, development, testing.
6	<div>WEB SYSTEM, APPLICATION  5 months  6</div> Japanese Real Estate Portal Website	Java Seasar2, mySQL, HTML&CSS, Javascript	The homepage of a Japanese real estate agency's website. Users can search for information on apartments, condos, offices, and more.	Development & testing.
7	<div>WEB SYSTEM, APPLICATION  3 months  10</div> Campaign Management System	HTML&CSS, Javascript, PHP, mySQL, Marketo	An application for setting corporate marketing goals, executing them, and analyzing outcomes until results are achieved.	Development & testing.
8	<div>WEB SYSTEM, APPLICATION  7 months  4</div> B2C Postcard Creation Platform	HTML&CSS, Javascript, Laravel, postgresql	A B2C platform where users can upload their photos to create albums, postcards, and more. Existing templates can also be selected and utilized.	Development & testing.
9	<div>WEB SYSTEM, APPLICATION  1 months  4</div> Advertising Campaign Management System	HTML&CSS, Javascript	A website to introduce and promote new products, as well as gather user opinions.	Development & testing.
10	<div>WEB SYSTEM, APPLICATION  2 months  4</div> Healthcare System	Cake PHP 3.0, HTML & CSS, Javascript, mySql, Databables v1.10.12 (js), Highchart (js)	A web system for patients and doctors to manage health status, medication records, and clinic visit history.	Development, testing & maintenance.
11	<div>WEB SYSTEM, APPLICATION  1 months  3</div> Patient Information Management System	C#, mySQL	An application for managing patient information, test indicators, medical history, and clinic visit records.	Development, testing, operation & maintenance.
12	<div>WEB SYSTEM, APPLICATION  6 months  5</div> System Migration (PHP version upgrade)	PHP 5.3 → 7.0 SQL Server, Amazon Aurora	Concurrently perform AWS migration and migration to the latest version of PHP. This is a lab-type development project.	Development & testing.
13	<div>WEB SYSTEM, APPLICATION  4 months  2</div> System Migration (PHP to Ruby)	PHP, Ruby on Rails, mySQL	Migrate an operational PHP system to Ruby on Rails. This is a lab-type development project.	Development & testing.
14	<div>WEB SYSTEM, APPLICATION  6 months  6</div> Semiconductor Factory Control System Development	JavaFramework with Oracle integration	Develop a control system for semiconductor factories using a proprietary framework in Java. This is a lab-type development project.	Development & testing.
15	<div>WEB SYSTEM, APPLICATION  2 months  3~5</div> Restaurant Shift Management System Development	"Java Spring Framework PostgreSQL"	Develop a shift management system for restaurants using the Spring framework in Java. This is a lab-type development project.	Development & testing.
16	<div>WEB SYSTEM, APPLICATION  3 months  3~5</div> Corporate Self-Service Portal Construction	ASP.NET MVC Framework	Develop a self-service portal for enterprises using the ASP.NET MVC framework. This is a lab-type development project.	Development & testing.
17	<div>WEB SYSTEM, APPLICATION  3 months  3~5</div> Production Management System for Factories, Quality Control System Development	"Java Spring Framework PostgreSQL"	Develop production management and quality control systems for factories using the Spring framework in Java. This is a lab-type development project.	Development & testing.
18	<div>WEB SYSTEM, APPLICATION  4 months  4</div> Market Expansion System for Banks	"Java Spring Framework PostgreSQL"	Develop a market expansion system for banks using the Spring framework in Java. This is a lab-type development project.	Development & testing.
19	<div>WEB SYSTEM, APPLICATION  2 years  6</div> Centralized E-Commerce Management System	"Java Spring Framework MySql"	Develop a website to centrally manage various e-commerce malls.	Development & testing.
20	<div>WEB SYSTEM, APPLICATION  8 months  3</div> Inventory Management for Construction	"PHP Laravel, MySQL"	Develop the inventory management component within the sales and inventory management system for construction products. This will enable management of stocktaking operations and tracking the condition and quantity of items returned from the field.	Development & testing.
21	<div>BUSINESS APPLICATION  6 months  16</div> E-learning Application	C#, SQL Server	A test creation tool for schools. It supports inserting equations (TeX) and graphics, allowing the creation of tests in subjects like math and science. Created tests can be output for paper-based or online tests, and it includes an automatic grading feature.	Development, testing, operation & maintenance.
22	<div>BUSINESS APPLICATION  4 months  3</div> Login System with Facial Recognition	OpenCV, Windows Credential, C#	A login system using facial recognition. By adjusting Windows' login process, users can easily log into Windows using a camera-based application and facial recognition powered by [OpenCV].	System design, development and testing.
23	<div>BUSINESS APPLICATION  2 years  4</div> Year-End Tax Data Management System	C#	A system for inputting year-end tax declaration data and generating reports.	System Design, development, testing, operation, maintenance.
24	<div>BUSINESS APPLICATION  9 months  12</div> Compliance Management System	SharePoint Online, ReactJS	A system to manage compliance with regulations within Heineken's internal operations.	System Design, UI/UX design, development, testing, operation, maintenance.
25	<div>BUSINESS APPLICATION  5 months  8</div> Product Sample Testing Management System	Java, Spring Boot, MySQL	A management system for the testing of product samples before they are released to the market.	System Design, UI/UX design, development, testing, operation, maintenance.
26	<div>BUSINESS APPLICATION  5 months  6</div> Document Request Management System	.NET 6, Blazor, MSSQL	A document request management system for local governments.	System Design, UI/UX design, development, testing, operation, maintenance.
27	<div>BUSINESS APPLICATION  1 months  3</div> Patrol Task Management System	ASP.NET Core, MSSQL	A management system for monitoring the status of the city's sewage system.	Development, testing, operation & maintenance.
28	<div>CORE SYSTEM  8 months  3</div> Migration of Local Government Core Systems	.NET Framework, Java, PostgreSQL, Oracle	Database migration for the core system of local governments.	System Design, UI/UX design, development, testing, operation, maintenance.
29	<div>CLOUD SERVICE  8 months  10</div> System Development for Surveillance Camera CS	PHP, ReactJS, DynamoDB	A system to manage cloud services for surveillance cameras in a B2B2C model.	Development, testing, operation & maintenance.
30	<div>WEB SYSTEM, APPLICATION  15 months  5~15</div> Next Generation Software for Semiconductor Manufacturer	OSS, C++, ReactJS/TypeScript AWS Services	A system for monitoring the status and controlling the operation of semiconductor grinding devices. Additionally, it analyzes and visualizes the logs of wafer grinding processes.	Requirement design, system Design, UI/UX design, development, testing, operation, maintenance.
31	<div>WEB SYSTEM, APPLICATION  > 1 year  6</div> Beauty Clinic Operations Management	PHP Laravel, MySQL IOS, Android	A system designed to manage the operations of Japanese beauty clinics, aiming to reduce employee management costs. It includes a mobile app for customers that allows them to access essential information such as personal data, reservation details, and campaign notifications.	Development.

#	Project Name	Technologies	Overview	Response Process
32	<div>CLOUD SERVICE</div> <div>🕒 6 months 👤 6</div> <div>B2B2C Service Video Creation</div>	Web: HTML, CSS, JS, C#, iOS: Swift 2.3, Android: Java, Window Server 2012 R2, SQLserver 2014, Adobe: AE, PS, AI, XD	A website or mobile app where users can easily create and edit videos with various themes such as business, advertising, food, travel, and more.	System Design, UI/UX design, development, testing, operation, maintenance.
33	<div>APPLICATION</div> <div>🕒 4 months 👤 5</div> <div>Blockchain Development</div>	GCoin core: C++/C, Bitcoin PHP, Android	Obtaining open-source code of existing coins, setting up the environment from scratch, customizing the core components of the coin, and enabling operations through web and mobile UIs. While not exhaustive, this project offers a comprehensive experience of a cryptocurrency system.	System design, development and testing.
34	<div>WEB SYSTEM, APPLICATION</div> <div>🕒 24 months 👤 4</div> <div>Group Messaging System & App</div>	PHP, Android SDK, Objective-C	A system and app for sending urgent notification emails to users.	System Design, UI/UX design, development, testing, operation, maintenance.
35	<div>WEB SYSTEM, APPLICATION</div> <div>🕒 > 5 years 👤 8</div> <div>Maintenance Project</div>	C#, SQL Server	Engaging in maintenance for multiple projects continuously for over 5 years. These are lab-type development projects.	Development & testing.
36	<div>BUSINESS APPLICATION</div> <div>🕒 > 1 year 👤 4</div> <div>Music Playback App for Stores</div>	Android, Web API	An Android business app for managing music played in Japanese stores. It allows playlist playback based on calendars specified on the server.	Development, testing, operation & maintenance.
37	<div>APPLICATION</div> <div>🕒 2 years 👤 4</div> <div>8-Second Video Creation App</div>	Android, Objective-C, Swift	An iOS/Android app that allows users to create 8-second videos by combining images, videos, and BGM, and inserting stamps and frames. The created videos can be saved to the camera roll and shared on social networks such as Facebook and Twitter.	Development, testing, operation & maintenance.
38	<div>APPLICATION</div> <div>🕒 6 months 👤 3</div> <div>Catalog App</div>	Android, Objective-C, Swift	An iOS/Android catalog app that provides a B2B service allowing users to manage data through individual CMS and create custom applications.	Development, testing, operation & maintenance.
39	<div>APPLICATION</div> <div>🕒 3 months 👤 2</div> <div>Bookstore App</div>	Android, Web API	An Android app developed for publishing houses in Japan, allowing users to read purchased books within the app.	Development, testing, operation & maintenance.
40	<div>APPLICATION</div> <div>🕒 1 months 👤 2</div> <div>Golf App</div>	Objective-C, GPS, SQLite	An iOS app for golfers that calculates the required power and swing adjustments based on the slope of the green, distance to the flagstick (hole), current position, and wind speed.	Development, testing, operation & maintenance.
41	<div>APPLICATION</div> <div>🕒 3 months 👤 3</div> <div>English Learning App</div>	Android, Objective-C, Swift, CoreData	An English learning app for iOS and Android that offers rearrangement exercises for English words. Users can solve word scramble questions to enhance their English language skills.	Development, testing, operation & maintenance.
42	<div>APPLICATION</div> <div>🕒 > 1 year 👤 4</div> <div>Management App for Haircare Salons</div>		An app designed for hair care salons to manage customer data.	Development, testing, operation & maintenance.
43	<div>APPLICATION</div> <div>🕒 2 months 👤 2</div> <div>Store App</div>	Android SDK, Swift, SQLite, CoreData	An app that allows customers to search for information and products specific to each store. Stores can use the app to deliver advertisements and push notifications to customers, providing them with the latest updates and announcements.	Development, testing, operation & maintenance.
44	<div>APPLICATION</div> <div>🕒 1 months 👤 1</div> <div>Event-Based Game App</div>	Swift, Cocos 2D	A mini-game app for promoting children's milk products to be used at events and similar occasions.	Development, testing, operation & maintenance.
45	<div>APPLICATION</div> <div>🕒 2 months 👤 1</div> <div>Flashcard-Style English Learning App</div>	Android SDK, Objective-C	An iOS/Android flashcard app that utilizes a dedicated CMS for managing app data and push notifications. Customers can create their own unique apps using a B2B framework.	Development, testing, operation & maintenance.
46	<div>APPLICATION</div> <div>🕒 2 months 👤 2</div> <div>Android Launcher App</div>	Android SDK	An Android launcher app designed for children to manage data and more on tablet devices. It allows synchronization of applications, games, videos, and more from a server.	Development, testing, operation & maintenance.
47	<div>APPLICATION</div> <div>🕒 3 months 👤 2</div> <div>Video Playback App</div>		An app for playing copyrighted videos.	Development, testing, operation & maintenance.
48	<div>APPLICATION</div> <div>🕒 3 months 👤 4</div> <div>Media Streaming Playback App</div>	Android SDK, Swift, SQLite, CoreData, Streaming Player	An app for playing copyrighted media offline or through online streaming.	Development, testing, operation & maintenance.
49	<div>APPLICATION</div> <div>🕒 3 months 👤 2</div> <div>Zombie Raising Idle Game</div>	Unity 2D, Google Ads SDK	A zombie cultivation idle game “Gruuu! Gruuu!...”	Development, testing, operation & maintenance.
50	<div>APPLICATION</div> <div>🕒 2 months 👤 2</div> <div>RSS Feed App</div>	Objective C, SQLite, CoreData	An iOS app for RSS Feed.	Development, testing, operation & maintenance.
51	<div>APPLICATION</div> <div>🕒 2 months 👤 1.5</div> <div>App for Tracking Alcohol Consumption & Health Impact</div>	Android SDK	An app to manage the effects of alcohol consumption on health.	Development, testing, operation & maintenance.
52	<div>APPLICATION</div> <div>🕒 2 months 👤 2</div> <div>Income-Expense Simulation App</div>	Objective C, CoreData	An app for the Japanese real estate industry. It allows users to simulate the income and expenses of purchasing real estate using various payment methods such as bank loans, installment payments, and rentals. The data can be outputted to PDF format and sent via email or printed.	Development, testing, operation & maintenance.
53	<div>APPLICATION</div> <div>🕒 4 months 👤 3</div> <div>Authentication SDK Development</div>	Android SDK, Swift, CoreData, SQLite	An iOS and Android SDK with server authentication and encryption operations using authentication, ensuring secure transactions such as transfers and information registration that require high security.	Development, testing, operation & maintenance.
54	<div>APPLICATION</div> <div>🕒 5 months 👤 2</div> <div>Children's Traditional Story App</div>	Android, Objective-C, Swift, SpriteKit, Cocos2d	An app for children to learn Vietnamese folktales. They can listen to stories while enjoying fun effects and animations, and play various mini-games to help characters in the story. The app supports three languages: Vietnamese, English, and Japanese.	System Design, UI/UX design, development, testing, operation, maintenance.
55	<div>APPLICATION</div> <div>🕒 1.5 months 👤 2</div> <div>Children's Traditional Story App</div>	Android, Objective-C, Swift, SpriteKit, Cocos2d	An app for children to learn Vietnamese folktales. They can listen to stories while enjoying entertaining effects and animations, and engage in various mini-games to assist characters within the stories. The app supports three languages: Vietnamese, English, and Japanese.	System Design, UI/UX design, development, testing, operation, maintenance.
56	<div>APPLICATION</div> <div>🕒 2 months 👤 2</div> <div>Math App for Kids</div>	Android, Objective-C, Swift, SpriteKit, Cocos2d	A math app for children. With vibrant images, engaging sound effects, and simple games (such as connecting dots), kids can develop their skills and become familiar with numbers.	System Design, UI/UX design, development, testing, operation, maintenance.
57	<div>APPLICATION</div> <div>🕒 2 months 👤 2</div> <div>Taxi Booking App</div>	Android, Objective-C, Google Map, GPS	An Android app for taxi users. Key features include searching for taxi company information, requesting fare estimates for specific routes, comparing fares from different taxi companies for the same route, directly calling a taxi from the app, and adding/editing data for use outside of Vietnam.	System Design, UI/UX design, development, testing, operation, maintenance.
58	<div>APPLICATION</div> <div>🕒 2 months 👤 1</div> <div>Puzzle Game App</div>	Android, Objective-C, Cocos2d	An iOS puzzle game app where players assemble a complete map of Vietnam by arranging scattered puzzle pieces. The app offers three levels of difficulty and supports two-player competitive play. Players can collect stamps representing Vietnam's history based on their performance.	System Design, UI/UX design, development, testing, operation, maintenance.
59	<div>APPLICATION</div> <div>🕒 15 months 👤 4</div> <div>Nutritional Management System</div>	Android SDK, Objective-C	An app that allows users to analyze and review their meal data. Users can also integrate data from other apps, such as step counts and heart rate, and visualize them on graphs for monitoring.	System Design, UI/UX design, development, testing, operation, maintenance.
60	<div>APPLICATION</div> <div>🕒 6 months 👤 4</div> <div>Japanese Language Learning App for Foreigners</div>	Android SDK, Objective-C	An app for foreigners to learn Japanese.	System Design, UI/UX design, development, testing, operation, maintenance.
61	<div>APPLICATION</div> <div>🕒 6 months 👤 5</div> <div>English Language Learning App for Japanese</div>	Android SDK, Objective-C	An app for Japanese people to learn English.	System Design, UI/UX design, development, testing, operation, maintenance.
62	<div>APPLICATION</div> <div>🕒 24 months 👤 7</div> <div>Advertising Media Distribution Service</div>	Android SDK, Swift	An app that streams copyrighted media to 4K displays and plays it based on a schedule.	System Design, UI/UX design, development, testing, operation, maintenance.
